

# Anis Abou-Zaki

Associate Director

B.Arch Dip  
MScEDE  
MOEA (LBN)  
LEED® AP

## Environmental Analyst

Anis specialises in climate responsive low-energy design, dynamic thermal simulation, solar, daylight and wind modelling, and renewable energy systems.

He has a wide-ranging knowledge of passive design and low energy design strategies, renewable energy and sustainable benchmarking.

Anis has worked on several masterplans in the UK and abroad. He uses analytical methods to inform the distribution, massing and orientation of built form to improve daylight and solar access and provide protection from noise and pollution. Anis has a particular interest in providing guidance to masterplan massing based on wind environment analysis to enhance natural ventilation and safety and comfort at pedestrian levels.

Anis is a registered architect and has been involved in different stages of construction from concept until site execution in Europe and the Middle East.

Prior to joining PHA Consult, Anis worked as a Senior Environmental Analyst and Senior Environmental Design Consultant with Battle McCarthy and WSP Energy.

### Selected Project Experience

#### Zenith Arena, St Etienne, France

Building Simulation & Environmental Analysis

#### Spaceport , New Mexico, USA

Environmental Design

#### Qatar masterplan

Sustainable & Environmental Design

#### Tour Signal, Paris

Environmental Design & Analysis

#### Moscow Masterplan

Sustainable masterplanning

#### Mumbai Masterplan

Environmental Design & Facade Analysis
