

Peter Pavlovic

Associate Director

GCGLI
FCIPHE
IEng

Public Health Engineer

Peter has worked in the construction industry for over 30 years. On-site experience was gained with W H Easterling, building contractor Wargrave & Merrington and James Building Contractors. He later trained as a Public Health Engineer with Howard Humphreys and Brown & Root. Peter has worked for a number of major and internationally renowned engineering consultancies during his career including White Young Green, Halcrow Yolles, WS Atkins, Buro Happold and WSP.

Peter has considerable experience in all aspects of Public Health Services covering above-ground sanitary plumbing, laboratory fittings, roof design, underground drainage systems, domestic and treated water systems, grey & storm water treatment and re-use, fire protection systems and sprinklers. Peter spent a number of years working in the pharmaceutical industry and has worked on projects for a number of major pharmaceutical companies in the UK and Europe.

Peter has also worked on a number of health care, hotel, commercial, retail and office developments, as well as airports, prisons and sports facility projects.
