

# Scott Smith

Associate Director

BSc  
CEng  
MIMechE  
MCIBSE  
LEED® AP

## Sustainable Design Engineer

Scott has broad experience in office, residential, laboratory and government building services design. He has experience in thermal modelling and energy analysis, and has participated in various sustainable research projects for the EU and the UK DTI.

Scott has worked on a variety of projects from prisons, police stations and laboratories to experimental testing facilities for the BRE.

Having initially trained as a mechanical engineer, Scott has devoted the last 8 years of his career to sustainable design, working on a range of high-profile projects in the UK, North America, Asia and Europe.

Scott is a BREEAM and EcoHomes assessor and also is a LEED Accredited Professional with extensive knowledge of the application of LEED rating systems. Scott is also a trained Low Carbon Consultant.

Scott joined PHA Consult as an Associate Director in 2008. Prior to this he headed regional sustainability and analysis teams in major international consultancies.
