

# Trevor Barrett

Associate Director

BA(Hons)

## Electrical Engineer

Over the past 30 years Trevor has specialised in Electrical Engineering within the building services industry. His experience has been gained with leading contracting and consulting organisations, including Drake & Scull, Ove Arup and Flack and Kurtz. Trevor joined PHA Consult in April 2008 and is directly involved with designing and running a number of projects.

Project involvement includes preparation of scheme designs and specifications on projects from initial concept stage through design and tender. This has included a variety of commercial, industrial, residential, hotel and banking data centre facilities.

Trevor has recently taken on responsibility for site monitoring and quality assurance of electrical installations. This has involved co-ordinating with the site project management team and main contractor's organisation to handover compliant and successful projects.

As Associate Director Trevor provides technical assistance within the electrical team and is committed to providing concise, logical designs to suit clients' aspirations and architects' visions.
